Profile

Full Stack Developer with a strong track record of working across cross-functional teams to deliver results-oriented solutions. Proficient in developing clean, scalable, and production-ready code for both frontend and backend systems. Enthusiastic about Generative AI, Prompt Engineering, and building cutting-edge software applications.

Professional Experience

Software Developer   08/2023 – 07/2025
WLC Technology LLP   Mumbai, Maharashtra

- Spearheaded multiple MERN stack projects, including scalable SaaS products, with a focus on performance, maintainability, and timely delivery.
- Led end-to-end development for international client projects, ensuring high-quality output and successful deployments.
- Worked across diverse technologies including MERN stack, React Native, Wix Velo, and WordPress to deliver robust, production-ready web and mobile solutions.
- Actively contributed to architectural planning, conducted code reviews, and mentored junior developers to maintain high development standards.

Education

Full Stack Web Development   08/2022 – 06/2023
Masai School (full-time)   Bengaluru, India

Bachelor of Technology in Electrical Engineering   08/2014 – 10/2018
Dr. A.P.J. Abdul Kalam Technical University   Lucknow, India

Skills

JavaScript | Node.js | Express.js | React | HTML | CSS | AWS | MongoDB | Team Collaboration | Adaptability | Problem Solving

Projects

Enterprise Notion
Live 🔗 | Github 🔗

- An AI-powered document workspace offering intelligent linking, auto-tagging, and natural language question answering using Google Generative AI.
- Includes a rich text editor with Markdown support, dark/light mode, multi-user access, and hierarchical document organization.
- **Tech Stack :** React, Node.js, Express, MongoDB, TipTap, MUI and Google Generative AI.

Trip To Heaven
Live 🔗 | Github 🔗

- A web application inspired by MakeMyTrip with features like flight, hotel, and holiday package search, booking, and cart management.
- Independently developed the Hotel Booking section including search, filter, detail view, and booking flow.
- **Tech Stack :** React, Redux, JSON-Server, Firebase (OTP auth), Chakra UI, Axios and Redux Thunk.

Certificates

Full Stack Development 🔗 — Certificate of completion for a Full-Stack Web Development course. •

Prompt Engineer: 🔗 — Certificate of completion for a prompt engineering course, focusing on fine-tuning and writing efficient prompts.
